PROSPECTUS

OF THE

St. Louis University.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of the "St. Louis UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, and has progressively improved so as to offer every advantage for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 14,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a collection of over 7,000 volumes.

The College Villa, situated near the city, is large and beautiful, with ample buildings, spacious groves, and recreation grounds. Here the students may spend their weekly holiday and the summer vacation in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one session, beginning on the first Monday of September, and ending about the 4th of July, when the annual commencement, the conferring of degrees, and the distribution of premiums, take place.

The session is divided into two terms, the first ending on the 2d of February, and the second about the 4th of July. A thorough examination of all the classes is made at the close of each term. Every month the places or degrees of merit, obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A.B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A.M. is obtained by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he comes from another College he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than one session. No student will be received under the age of ten, nor over that of sixteen.

Bulletins are sent three times a year to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students, whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days' recess which begins on the 24th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of other denominations are admitted, provided they are willing to attend the public exercises of religious worship.

Directions to Parents.

The students must be provided with at least two summer and two winter suits; a sufficient number of shirts, handkerchiefs, socks, towels, napkins, combs, brushes, and other indispensable articles. All these can be had at the University, provided a sum sufficient to meet the expenses is placed in the hands of the Treasurer.

No student is allowed to keep money in his possession. The pocket money must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed to the students. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary travelling expenses.

Parents who live at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed to the "*St. Louis University, corner of Ninth street and Washington avenue, St. Louis, Mo.*"

PROSPECTUS

OF THE

St. Louis University.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of the "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, and has progressively improved so as to offer every advantage for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 14,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a collection of over 7,000 volumes.

The College Villa, situated near the city, is large and beautiful, with ample buildings, spacious groves, and recreation grounds. Here the students may spend their weekly holiday and the summer vacation in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one session, beginning on the first Monday of September, and ending on the last Wednesday or Thursday of June, when the annual commencement, the conferring of degrees, and the distribution of premiums, take place.

The session is divided into two terms, the first ending on the 1st of February, and the second on the last Wednesday or Thursday of June. A thorough examination of all the classes is made at the close of each term. Every month the places or degrees of merit, obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A.B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A.M. is obtained by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he comes from another College he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than one session. No student will be received under the age of ten, nor over that of sixteen.

Bulletins are sent three times a year to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students, whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days' recess which begins on the 24th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of other denominations are admitted, provided they are willing to attend the public exercises of religious worship.

Directions to Parents.

No advances will be made by the Institution for clothing, pocket-money, or other expenses of the students. If parents therefore desire that the College procure any articles for their sons, a sum sufficient to meet the expense should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer and two winter suits, six shirts, six pairs of woolen and six pairs of cotton socks, six handkerchiefs, six towels, and two pairs of boots or shoes, etc.

No student is allowed to keep money in his possession. The pocket money must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed to the students. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary travelling expenses.

Parents who live at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed to the "*St. Louis University, corner of Ninth street and Washington avenue, St. Louis, Mo.*"

T e r m s .

As the Institution is not endowed, it is entirely dependent for its support on the fees paid for board and tuition. The experience of the past year renders it necessary to increase the charges for *board* during the coming session.

PROSPECTUS

OF THE

St. Louis University.

This Literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829, by members of the Society of Jesus, incorporated by an Act of the State Legislature in 1832, under the name and style of the "St. Louis UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally "to have and enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, and has progressively improved so as to offer every advantage for acquiring a liberal education.

The Institution possesses a valuable Museum, which contains a great variety of specimens, both of nature and of art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 14,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries, open to the students, form a collection of over 7,000 volumes.

The College Villa, situated near the city, is large and beautiful, with ample buildings, spacious groves, and recreation grounds. Here the students may spend their weekly holiday and the summer vacation in a manner conducive alike to health and relaxation.

General Regulations.

The Academic Year consists of one session, beginning on the first Monday of September, and ending on the last Thursday of June, when the annual commencement, the conferring of degrees, and the distribution of premiums, take place.

The session is divided into two terms, the first ending on the 1st of February, and the second on the last Thursday of June. A thorough examination of all the classes is made at the close of each term. Every month the places or degrees of merit, obtained by the students in the different classes, are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence, and proficiency.

On the completion of the Classical Course, the degree of A.B. is conferred upon all those who, on examination, are found deserving of that distinction. Subsequently the degree of A.M. is obtained by devoting a second year to the study of Philosophy in the Institution, or two years to a learned profession.

Every candidate for admission, who is not personally acquainted with some member of the Faculty, must produce proper testimonials of a good moral character. If he come from another College, he will be required to present a certificate of good standing in the Institution which he has left. No one will be admitted for a shorter period than one session. No student will be received under the age of ten, nor over that of sixteen.

Bulletins are sent three times a year to the parents or guardians of the students, to inform them of the conduct, health and improvement of their sons or wards.

Thursday is the weekly recreation day. On the first Thursday of every month, the students, whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days' recess which begins on the 24th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors and the majority of the students are members of the Catholic Church. Pupils of other denominations are admitted, provided they are willing to attend the public exercises of religious worship.

Directions to Parents.

No advances will be made by the Institution for clothing, pocket-money, or other expenses of the students. If parents therefore desire that the College procure any articles for their sons, a sum sufficient to meet the expense should be deposited with the Treasurer.

Each student, on entering, should be provided with at least two summer and two winter suits, six shirts, six pairs of woollen and six pairs of cotton socks, six handkerchiefs, six towels, and two pairs of boots or shoes, etc.

No student is allowed to keep money in his possession. The pocket money must be deposited with the Treasurer, and it is the wish of the Faculty that no more than fifteen or twenty-five cents per week be allowed to the students. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary travelling expenses.

Parents who live at a distance should appoint an agent in St. Louis or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

All letters sent or received by students, unless to or from parents, are subject to the inspection of the President.

Letters, etc., to be carefully directed to the "*St. Louis University, corner of Ninth street and Washington avenue, St. Louis, Mo.*"
